

## Corporate Sustainability For Schools (CS4Schools) Programme 「學校商界跨接計劃」

Organised by the Business Environment Council (BEC), Corporate Sustainability For Schools (CS4Schools) is a 2-year programme (2009-2011) funded by the Sustainable Development Fund of the HKSAR Government.

**Objectives:** To disseminate the concept of Corporate Sustainability (CS) to high school students and prepare our future leaders who are still in their higher education by learning from leading companies (our Corporate Partners) their success stories and best practices on corporate sustainability.

Since November 2009, CS4Schools Programme has benefited a total of 52 local secondary schools, introduced a total of 314 educators and 7,768 students on the concept of sustainable development (SD) and corporate sustainability (CS) through school talks. Via the see-and-learn process, BEC officials guided more than 1,600 teachers and students from these 52 schools to experience how our CS4Schools Corporate Partners practiced CS in 19 different premises.

### List of Participating Schools 參與學校名單 Second Round 第二年度 (Sep 2010 – May 2011)

## Student Activity Highlights 學生活動花絮

To encourage students to internalise their learning from various school talks and company visits, as well as creating multiplier effect by sharing lively with their fellow classmates, they were invited to present their CS knowledge via various activities, such as role play, dramas, campus television programmes, exhibitions and presentations in their schools:

**Mar 11:** A Form 4 student shared what she saw and learnt to schoolmates in SKH Holy Carpenter Secondary School.

**Apr 11:** Form 6 students introduced how HKIA practises CS to Form 2 students in Kiangsu – Chekiang College (Kwai Chung).

## MORE ABOUT OUR CORPORATE PARTNERS

### Sino Group

Established in 1971, Sino Group is one of the leading property developers in Hong Kong. Sino Group has developed more than 200 properties to date. In 2010, it was named 'The Third Best Global Developer' by Euromoney magazine.

As a committed corporate citizen, Sino Group has been actively involved in a range of community programmes, voluntary services, green initiatives, and art and cultural events.

For green initiatives, the Group is dedicated to environmental sustainability through eco-friendly architectural features, energy-saving innovations and green property management practices.

Over the years, the Group has actively sponsored and participated in a wide array of charitable fund raising activities and it has been a longstanding supporter of a number of organizations serving the community and of charitable nature.

Believing that art and culture enrich the quality of life and promote creativity, the Group has operated the 'Art in Hong Kong' programme since 2006 to provide opportunities for local and international artists to display and promote their work, bringing art into people's daily lives and enhancing public appreciation of various types of art.

Learn more about Sino Group at [www.sino.com](http://www.sino.com).

### Swire Properties Limited

Corporate social responsibility has long been a fundamental value practised by Swire Properties (SPL). SPL recognises the long term impact of buildings on the environment and sets out its vision to proactively influence the industry and stakeholders. SPL's approach is guided by the Swire Pacific Sustainable Development Policy and key environmental principles that minimise environmental impacts in the planning, design, construction, operation, maintenance and demolition of all our facilities and services.

SPL supports building rating schemes that measure these impacts. In Hong Kong, 15 of its properties are rated 'Excellent' or 'Platinum', the highest ratings under the independent Building Environmental Assessment Method (BEAM). SPL aims to achieve BEAM Platinum for its new projects in Hong Kong.

SPL monitors its environmental impacts through its Environment, Health and Safety (EHS) database and regularly update its senior management on progress through our Sustainable Development Steering Committee and the Swire Group Environment Committee. SPL has established a 10-year energy reduction plan to reduce 20% of energy consumption in all its buildings by 2020 (using 2008 as the base).

For more information about SPL, please visit [www.swireproperties.com](http://www.swireproperties.com).
